ethical issues in children's research that takes place in school-settings. School-based research is not a partic-ularly prominent topic in the research ethics litera-ture, despite the fact that the majority of children's research takes place in school settings and that all but a tiny fraction of children who participate in research

Ethical Issues in School-Based Research

Abstract. Ethics is a complicated field and much has been written about its application to educational research. In this paper we introduce a way of planning for and dealing with situations that arise in the course of research that promotes detailed ethical analysis. We present a framework based on the work of Seedhouse and Flinders and describe a methodology for its use, alongside two examples in which the framework was used to achieve

a comprehensive ethical analysis.

Ethics in Educational Research Essay - 1593 Words

The establishment of research ethics committees (REC) in China's higher education institutions (HEI) is lagging far behind western developed countries. This has at least partly directly led to anomie in scientific research ethics, as seen in the recent controversies involving a proposed human head transplant and gene-edited babies. At present, the problems for REC in China's HEI include ...

Problems and development strategies for research ethics ...

There are a number of ethical principles that should be taken into account when performing undergraduate and master's level dissertation research. At the core, these ethical principles stress the need to (a) do good (known as beneficence) and (b) do no harm (known as non-maleficence). In practice, these ethical principles mean that as a researcher, you need to: (a) obtain informed consent from potential research participants; (b) minimise the risk of harm to participants; (c) protect their ...
