Wikibooks is a collection of open-content textbooks, which anyone with expertise can edit – including you. Unlike Wikipedia articles, which are essentially lists of facts, Wikibooks is made up of linked chapters that aim to teach the reader about a certain subject.

The Holy Grail Of Macroeconomics

"The Holy Grail of Macroeconomics presents a brilliant and original framework for understanding—and overcoming—a post-bubble economic crisis such as the one the world faces today. By discrediting the conventional view that monetary policy is effective in combating a post-bubble recession, Richard Koo has made an invaluable contribution to economic theory and at just the right time."
