The word 'revolution' implies a suddenness of change that is not, in fact, characteristic of economic processes. The system of human relationships that is sometimes called capitalism had its origins long before 1760, and attained its full development long after 1830: there is a danger of overlooking the essential fact of continuity.

### The Industrial Revolution, 1760-1830 by T. S. Ashton, 1997 ...

The Industrial Revolution (1760 - 1830) is known as the period of time in which many different aspects of life (such as technology & communication, transportation, and social structures) became more advanced whether that be for the better or for the worse. Trade routes expanded which lead to the increase in movement of people.

### INDUSTRIAL REVOLUTION - The Frankenstein Project

The Industrial Revolution, now also known as the First Industrial Revolution, was the transition to new manufacturing processes in Europe and the United States, in the period from about 1760 to sometime between 1820 and 1840.This transition included going from hand production methods to machines, new chemical manufacturing and iron production processes, the increasing use of steam power and ...

### Industrial Revolution - Wikipedia

The Industrial Revolution has sometimes been regarded as a catastrophe which desecrated the English landscape and brought social oppression and appalling physical hardship to the workers. In this book, however, it is presented as an important and beneficial mark of progress. In spite of destructive wars and a rapid growth of population, the material living standards of most of the British people improved, and the technical innovations not only brought economic rewards but also provoked ...

### The Industrial Revolution 1760-1830

The Industrial Revolution (1750-1900). The term Industrial Revolution, like similar historical concepts, is more convenient than precise. It is convenient because history requires division into periods for purposes of understanding and instruction and because there were sufficient innovations at the turn of the 18th and 19th centuries to justify the choice of this as one of the periods.
