Some locations are thought to be compass points on a map designed by sacred geometry and posses the ability to transport us to parallel universes. Among the earthly stargate sites, the most noted are the Stonehenge formation and the Bermuda Triangle, but several other locations are also attributed with being ancient alien portals.

3 Suspected Stargate Locations Around the World | Gaia

The Planetary Stargate System are the Earth's connection points into the Galactic and Universal Star Systems. They were once sealed off and closed, but now these Stargates are progressively opening during the Return of the Dove Ascension Cycle. Stargates are locations where energy spirals and flows like a faucet.
