The Purpose Of Preparation And

Preparation and planning are a critical component of effective teaching. Lack thereof will lead to failure. If anything, every teacher should be over prepared. Good teachers are almost in a continuous state of preparation and planning.

Strategies for Teachers: Preparation and Planning

While purpose is the key element of preparation, there are several other components as well. What does it take to be prepared for a facilitated interaction? Facilitators know that whether they are preparing for running a task force meeting, delivering a presentation or meeting with a customer, the secret to preparation is the same: they must achieve a clear understanding of the "5 P's."
