The seventies, even while they were in progress, looked like an unimportant decade, a period of cooling down from the white-hot sixties. You had to go back to the teens to find another decade so lacking in crisp, epigrammatic definition. It only made matters worse for the seventies that the succeeding decade started with a bang.

The '70s was the last decade when a person could wake up one day having no idea who Darth Vader was—and by dinner that night their head would be spinning with thoughts of the Dark Side and black helmets and lightsabers. The world was suddenly divided between "before Star Wars " and "after Star Wars," and nothing would be the same for us again.
