The Urban Contract Community Governance

Through a diverse range of ten city case studies, The Urban Contract compares European, North-American and Asian Urban Contracts. It concludes with a theoretical proposal for understanding the deep dialectical nature of Contract Cities: their reciprocity and competition, their dual trend towards growth and decay, their cyclical nature as agents of change and disruption of the social forms of urbanity.

The Urban Contract: Community, Governance and Capitalism ...

The concept of urban contract proposed in this book combines the theoretical body of economic-juridical literature on the contract with that of historical-anthropological and socio-spatial literature on the city. Through a diverse range of ten city case studies, The Urban Contract compares European, North-American and Asian Urban Contracts. It concludes with a theoretical proposal for understanding the deep dialectical nature of Contract Cities: their reciprocity and competition, their dual ...

The urban contract : community, governance and capitalism ...

What is urban governance? Urban governance refers to how government (local, regional and national) and stakeholders decide how to plan, finance and manage urban areas. It involves a continuous process of negotiation and contestation over the allocation of social and material resources and political power.

What is urban governance? - GSDRC

The purpose of community governance is to establish and nurture a collective identity within local authorities (see Figure 1). Banner (2002, p. 221) has defined community governance as: "...a broadening of the notion of local government beyond its traditional role in the delivery of

Community Governance: Where did it all go Wrong?

Community governance. Community governance focuses on power that communities exercise in order to achieve policy outcomes that suit their needs. To successfully achieve proper policies, community governments must first identify and map the community's assets, capacities, and abilities in order to properly understand a community's strengths and weaknesses i.e. physical, economic, political, social, among others.
