Solutions To Mathematics Textbooks/Topics In Algebra (2nd ...

Solution: Let the characteristic of D be p , therefore $p \mid a$ and p is the smallest such positive integer. Suppose p is not a prime, therefore $p = rs$ for some positive integers r and s , with both not equal to 1. Let some $a \in D$, therefore $a^2 \in D$ too. So we have $pa^2 = 0 = (rs)(aa) = 0 = (ra)(sa) = 0$ D being an integral domain, implies $ra = 0$ or $sa = 0$.

Solutions to TOPICS IN ALGEBRA

TOPICS IN ALGEBRA, I.N. Herstein Solutions (Group Theory) Posted on August 3, 2016. August 4, 2016. by mathematiciansworld. I will be providing solutions to Topics in Algebra, I.N. Herstein, Second Edition (Group Theory). The solutions to first problem sheet on Group Theory are provided below. Please email if any corrections at sadiahzahoor@cantab.net.

The problems below are paraphrased from/inspired by those given in Topics in Algebra by Herstein. The solutions are my own unless otherwise noted. I will generally try, in my solutions, to stick to the development in the text. This means that problems will not be solved using ideas and theorems presented further on in the book.
