A Capture Plate is a required component of the SuperGlide fifth wheel towing system. This plate is attached to your trailer's skid plate. When you're hooked up into your SuperGlide hitch and ready to tow, it isolates the rotation of your trailer's king pin in the hitch.

Capture Plates | Fifth Wheel Hitches by PullRite

Installation is easy; just remove your hitch ball, place the E-Z-Hitch Holder Plate in position, and then re-install the ball. The holder plate has two bosses that hold the guide plate in position. When you're ready to hitch, drop the guide plate in place, and start backing. msrp: \$89.95. EZQuip, (606) 886-8322, www.ezhitch.biz

How-to: Backup to a trailer with a hitch guide - Never ...

The head of the fifth wheel hitch will need to be lubricated, because it is in constant contact with the plate on the trailer. So when you turn there is going to be a lot of friction and squeaking, and if you don't lubricate it properly it could do some serious damage to both the trailer and the hitch.

EZ Trailer Hitch Buying Guide | EZ Wheeler.com

The two-part device consists of a base plate and a metal guide. Position the trailer coupling right above the tow ball. You can now easily attach your caravan trailer whenever required. The trailer guide can be detached after a successful coupling has occurred. This means that you can leave the base plate attached; it doesn't cause any interference with your hitching mechanism.
