Bus Watch: VTA's New Flyer Xcelsior

VTA is developing a new transit service plan that will be implemented when BART service to Santa Clara County begins in fall 2019. In 2017, VTA adopted the Next Network Plan, which was a from-scratch redesign of the transit network that aimed to increase ridership and improve VTA's cost-effectiveness by expanding the network of frequent routes.

VTA's Proposed Final 2019 New Transit Service Plan

VTA also provides express bus service, including express bus service to BART in Fremont. VTA's longest and most-used bus route is the 22, which connects VTA's Eastridge Transit Center in East San Jose with the Caltrain station in Palo Alto, which serves as a transfer point for SamTrans buses from San Mateo County.

All new orders for light rail vehicles (LRVs) in Europe since 2000 have been low-oor types, except where the systems needed to have high-oor vehicles because they have high platforms. Few European systems have high platforms. Given the prevalence and popularity of these designs, solutions to any issues are needed urgently.
