******Please read if you cannot connect to WiFi**** - Wii U**

I just got a Wii U from a buddy and I cannot for the life of me connect to my home WiFi. I have very good internet connection with a great router that my phone, wife's phone, PS4 etc connect to with no issue at all. I was up until 4am on Saturday trying to correct the issue.

Wii U won't connect to wifi : wiiu - reddit

I just got a Wii U and it seems it must not like my router (a Linksys E3000). No other devices seem to have a problem. When I enter the settings in the system menu the connection to the router completes successfully but the connection to the Internet does not. I've tried with DHCP as well as with a manually-specified IP and DNS.
