Worm The First Digital World

“Bowden . . . gives this account of the computer world’s efforts to neutralize the Conficker worm the flavor of a riveting report from the digital battlefield’s front lines. . . . A nerve-wracking but first-rate inside peek into the world of cybercrime and its vigilant adversaries.”—Booklist

Worm: The First Digital World War: Bowden, Mark ...

The subtitle for this book is: The First Digital World War. That’s overstating it, to be honest. The book focuses on the creation of the world’s largest botnet by a worm called Conficker back in 2008. At its peak, it was estimated to have infected between 9 and 15 million machines, and even as late as 2011 was still on roughly 1.7 million.

Worm: The First Digital World War by Mark Bowden

“In the world of nonfiction, Bowden is an ace, a writer with guts and gusto. . . [Worm] does a terrific job of setting the groundwork, turning the highly technical into something comprehensible.”—The Seattle Times “Worm details a digital-age battle between good and evil . . .
